

## COMMONLY ASKED QUESTIONS

### Q. HOW LONG WILL MY NEW FINISH LAST?

A. *With proper care, your new finish should last 10 -15 years or longer.*

### Q. DO I HAVE TO USE THE SAME OLD COLOR?

A. *No. With our reglazing process we can match any fixture's color or you can choose from a rainbow of designer colors.*

### Q. WHAT SHOULD I DO BEFORE YOU ARRIVE?

A. *Simply remove all personal items from the tub area. Check to see that the faucet is not leaking and that the drain is not clogged up.*

### Q. HOW LONG DOES IT TAKE?

A. *Reglazing a bathtub takes just a few hours. We can reglaze your entire bathroom in less than a day.*

### Q. WHEN CAN I USE MY REGLAZED TUB AND TILE?

A. *The reglazing will dry and be ready for your use in 24 hours ... not 48 or 72 hours like some materials or upon request, we can accommodate you with a 4 hour cure product that will allow you to use your fixture the same day!*

### Q. IS REGLAZING SAFE FOR MY FAMILY, PETS AND HOME?

A. *Yes. Our positive ventilation system removes any dust or overspray immediately from the areas. In addition, we cover and protect all adjacent fixtures and surfaces.*

### Q. IS MY SATISFACTION GUARANTEED?

A. *Absolutely. Topkote Professionals back their work 100%. (See warranty for details)*

### Q. IS THERE A CHARGE FOR AN ESTIMATE OR INSPECTION.

A. *Never. Call today for a free estimate.*
